b. Reviews

Review articles should be original and present state-of-the-art overviews in a coherent and concise form covering the most relevant aspects of the topic that is being revised and indicate the likely future directions of the field. Therefore,

before beginning the preparation of a Review manuscript, send a letter (one page maximum) to the Editor with the subject of interest and the main topics that would be covered in the Review manuscript. The Editor will communicate his decision in two weeks. Receiving this type of manuscript does not imply acceptance to be published in **Eclét. Quim.** It will be peer-reviewed.

c. Short reviews

Short reviews should present an overview of the state-of-the-art in a specific topic within the scope of the journal and limited to 5,000 words. Consider a table or image as corresponding to 100 words. Before beginning the preparation of a Short Review manuscript, send a letter (one page maximum) to the Editor with the subject of interest and the main topics that would be covered in the Short Review manuscript.

d. Communications

Communications should cover relevant scientific results and are limited to 1,500 words or three pages of the journal, not including the title, authors' names, figures, tables and references. However, Communications suggesting fragmentation of complete contributions are strongly discouraged by Editors.

e. Technical notes

Descriptions of methods, techniques, equipment or accessories developed in the authors' laboratory, as long as they present chemical content of interest. They should follow the usual form of presentation, according to the peculiarities of each work. They should have a maximum of 25 pages, including figures, tables, diagrams, etc.

f. Articles in education in chemistry and chemistry-correlated areas

Research manuscript related to undergraduate teaching in Chemistry and innovative experiences in undergraduate and graduate education. They should have a maximum of 25 pages, including figures, tables, diagrams, and other elements.

3. Special issues

Special issues with complete articles dedicated to Symposia and Congresses and to special themes or in honor of scientists with relevant contributions in Chemistry and correlate areas can be published by **Eclét. Quim.** under the condition that a previous agreement with Editors is established. All the guides of the journal must be followed by the authors.

4. Approval

Ensure all authors have seen and approved the final version of the article prior to submission. All authors must also approve the journal you are submitting to.

ETHICAL GUIDELINES

Before starting the submission process, please be sure that **all ethical aspects mentioned below were followed.** Violation of these ethical aspects may preclude authors from submitting or publishing articles in **Eclét. Quim.**

a. Coauthorship: The corresponding author is responsible for listing as coauthors only researchers who have really taken part in the work, for informing them about the entire manuscript content and for obtaining their permission to submit and publish it.

Two Corresponding authors for an article may be accepted provided both have equivalent contribution to the article, being one of them permanent in the Institution.

b. Nonauthors: Explicit permission of a nonauthor who has collaborated with personal communication or discussion to the manuscript being submitted to **Eclét. Quim.** must be obtained before being cited.

c. Unbiased research: Authors are responsible for carefully searching for all the scientific work relevant to their reasoning irrespective of whether they agree or not with the presented information.

d. Citation: Authors are responsible for correctly citing and crediting all data taken from other sources. This requirement is not necessary only when the information is a result of the research presented in the manuscript being submitted to **Eclét. Quim.**

e. Direct quotations: The word-for-word reproduction of data or sentences as long as placed between quotation marks and correctly cited is not considered ethical deviation when indispensable for the discussion of a specific set of data or a hypothesis.

f. Do not cite: Master's Degree dissertations and PhD theses are not accepted; instead, you must cite the publications resulted from them.

g. Plagiarism: Plagiarism, self-plagiarism, and the suggestion of novelty when the material was already published are unaccepted by **Eclét. Quim.** Before reviewing a manuscript, the **Turnitin antiplagiarism software** will be used to detect any ethical deviation.

h. Simultaneous submissions: of the same manuscript to more than one journal is considered an ethical deviation and is conflicted to the declaration has been done below by the authors.

i. Studies with humans or other animals: Before submitting manuscripts involving human beings, materials from human or animals, the authors need to confirm that the procedures established, respectively, by the institutional committee on human experimentation and Helsinki's declaration, and the recommendations of the animal care institutional committee were followed. Editors may request complementary information on ethical aspects.

COPYRIGHT NOTICE

The corresponding author transfers the copyright of the submitted manuscript and all its versions to **Eclét. Quim.**, after having the consent of all authors, which ceases if the manuscript is rejected or withdrawn during the review process.

MANUSCRIPT

We provide a template to help you prepare your manuscript. To download it, click [here](#).

1. General rules

Only manuscripts written in English are accepted. British or American usage is acceptable, but they should not be mixed. Non-native English speakers are encouraged to have their manuscripts professionally revised before submission.

Manuscripts must be sent in editable files as *.doc, *.docx or *.odt. The text must be typed using font style Times New Roman and size 12. Space between lines should be 1.5 mm and paper size A4, top and bottom margins 2.5 cm, left and right margins 2.0 cm.

All contributions must include an **abstract** (170 words maximum), **three to five keywords** and a **graphical abstract** (8 cm wide × 8 cm high).

Appendix should be included at the end of the main text of the manuscript.

Supplementary information: all type of articles accepts supplementary information (SI) that aims at complementing the main text with material that, for any reason, cannot be included in the article.

TITLE

The title should be concise, explanatory and represent the content of the work. The title must have only the first letter of the sentence in uppercase. The following are not allowed: acronyms, abbreviations, geographical location of the research, en or em dashes (which must be replaced by a colon). Titles do not have full point.

ABSTRACT

Abstract is the summary of the article. The abstract must be written as a running text not as structured topics, but its content should present background, objectives, methods, results, and conclusion. It cannot contain citations. The text should be written in a single paragraph with a **maximum of 170 words**.

KEYWORDS

Keywords are intended to make it easier for readers to find the content of your text. As fundamental tools for database indexing, they act as a gateway to the text. The correct selection of keywords significantly increases the chances that a document will be found by researchers on the topic, and consequently helps to promote the visibility of an article within a myriad of publications. **3 to 5 keywords** should be added.

FIGURES, TABLES AND EQUATIONS

Figures, tables and equations must be written with initial capital letter followed by their respective number and period, in bold, without adding zero “**Table 1**”, preceding an explanatory title. Tables, Figures and Equations should appear after the first citation and should be numbered according to the ascending order of appearance in the text (1, 2, 3...).

Figures, tables, schemes and photographs already published by the same or different authors in other publications may be reproduced in manuscripts of **Eclet. Quim.** only with permission from the editor house that holds the copyright.

Nomenclature, abbreviations, and symbols should follow IUPAC recommendations.

DATA AVAILABILITY STATEMENT

The data availability statement informs the reader where the data associate with your work is available, and under what conditions they can be accessed. They also include links (where applicable) to the data set.

- a. The data are available in a data repository (cite repository and the DOI of the deposited data);
- b. The data will be available upon request;
- c. All data sets were generated or analyzed in the current study;
- d. Data sharing is not applicable (in cases where no data sets have been generated or analyzed during the current study, it should be declared).

GRAPHICAL ABSTRACT

The graphical abstract must summarize the manuscript in an interesting way to catch the attention of the readers. As already stated, it must be designed with 8 cm wide × 8 cm high, and a 900-dpi resolution is mandatory for this journal. It must be submitted as *.jpg, *.jpeg, *.tif or *.ppt files as supplementary file.

We provide a template to help you prepare your GA. To download it, click [here](#).

SUPPLEMENTARY INFORMATION

When appropriate, important data to complement and a better comprehension of the article can be submitted as Supplementary File, which will be published online and will be made available as links in the original article. This might include additional figures, tables, text, equations, videos or other materials that are necessary to fully document the research contained in the paper or to facilitate the readers' ability to understand the work.

Supplementary material should be presented in appropriate .docx file for text, tables, figures and graphics. All supplementary figures, tables and videos should be referred in the manuscript body as “Table S1, S2...”, “Fig. S1, S2...” and “Video S1, S2 ...”.

At the end of the main text the authors must inform: This article has supplementary information.

Supplementary information will be located following the article with a different DOI number from that of the article, but easily related to it.

CITATION STYLE GUIDE

From 2021 on, the journal will follow the [ACS citation style](#).

Indication of the sources is made by authorship and date. So, the reference list is organized alphabetically by author.

Each citation consists of two parts: the in-text citation, which provides brief identifying information within the text, and the reference list, a list of sources that provides full bibliographic information.

We encourage the citation of primary research over review articles, where appropriate, in order to give credit to those who first reported a finding. Find out more about our commitments to the principles of [San Francisco Declaration on Research Assessment \(DORA\)](#).

What information you must cite?

- a. Exact wording taken from any source, including freely available websites;
- b. Paraphrases of passages;
- c. Summaries of another person’s work;
- d. Indebtedness to another person for an idea;
- e. Use of another researchers’ work;
- f. Use of your own previous work.

You do not need to cite **common knowledge**.

Example:

Water is a tasteless and odorless liquid at room temperature (common knowledge, no citation needed)

In-text citations

You can choose to cite your references within or at the end of the phrase, as showed below.

Within the cited information:

One author: Finnegan (2004) states that the primary structure of this enzyme has also been determined.

Two authors: Finnegan and Roman (2004) state that the structure of this enzyme has also been determined.

Three or more authors: Finnegan *et al.* (2004) state that the structure of this enzyme has also been determined.

PREPRINT Reference: Finnegan et al. (2004, PREPRINT) state that the structure of this enzyme has also been determined.

At the end of the cited information:

One author: The primary structure of this enzyme has also been determined (Finnegan, 2004).

Two authors: The primary structure of this enzyme has also been determined (Finnegan and Roman, 2004).

Three or more authors: The primary structure of this enzyme has also been determined (Finnegan *et al.*, 2004).

PREPRINT Reference: The primary structure of this enzyme has also been determined (Finnegan *et al.*, 2004, PREPRINT).

If you need to cite more than one reference in the same brackets, separate them with semicolon and write them in

alphabetic order:

The primary structure of this enzyme was determined (Abel *et al.*, 2011; Borges, 2004; Castro *et al.*, 2021).
